## PROFILE

Architect and Designer working at the intersection of spatial strategy, material intelligence and architectural narrative. My practice focuses on defining architectural identity through concept development, volumetric exploration and precise material articulation. I translate abstract ideas into spatial systems supported by technical clarity and construction logic. Each project is approached as a coherent system where atmosphere, structure and materiality converge into a unified architectural language.

---

## CORE EXPERTISE

Architectural identity · Spatial narrative · Concept development with technical rigor · Volumetric exploration · Material strategy · Design coherence

---

## PROFESSIONAL EXPERIENCE

### Senior Architect – Project Development | Freelance

Barcelona | 2024–Present

- Development of spatial strategies for residential and commercial projects.
- Definition of project identity through moodboards, diagrams and material systems.
- Iterative 3D exploration to test proportion, light and spatial hierarchy.
- Translation of conceptual intent into technically coherent documentation.
- Coordination with consultants, contractors and suppliers to safeguard design integrity throughout execution.

---

### Senior Architect | AR Studio

Argentina | 2020–2023

- Leadership in concept and pre-design phases for residential and commercial projects.
- Development of architectural narratives and spatial frameworks.
- Integration of material logic and detail strategy from early stages.
- Coordination of multidisciplinary teams throughout project development.

---

### Senior Interior & Furniture Designer | Apacheta Studio

Argentina | 2020–2023

- Design of interior systems and custom furniture as architectural extensions.
- Exploration of material research and craftsmanship within spatial projects.
- Development of technical drawings and coordination with workshops.

---

### Site Manager | Industrias Primonti SRL

Argentina | 2016–2020

- Full construction management and on-site coordination.
- Budget, timeline and quality control.
- Application of construction knowledge to strengthen long-term design decisions.

---

### Junior Project Architect | Minoldo Wenk Arquitectos

Argentina | 2014–2015

- Technical documentation and 3D modeling support.
- Participation in medium and large-scale architectural projects.

---

### Junior Architect (Internship) | Projeco SA

Switzerland | 2013

- Collaboration in early sustainable design stages within multidisciplinary teams.

---

## EDUCATION

Master BIM Manager — University of Barcelona (2024–Present)

Master in Design Through New Materials — Elisava (2023–2024)

Certificate in Technical Construction Management — Catholic University of Córdoba (2019)

Architecture Degree — Catholic University of Córdoba (2008–2013)

---

## SOFTWARE

SketchUp

Revit

AutoCAD

Adobe Creative Suite (Photoshop, InDesign, Illustrator)

---
